

"Caring Neighbors" program in The Parke

Caring Neighbors is a group of volunteer Parke residents who will provide infrequent and occasional assistance to other Parke residents. The group has existed for many years and several residents have served as coordinators in the past.

Prior to the current social distancing situation, most requests were for the following examples:

- Installation of a Life Alert system,
- Replacement of porch light bulb,
- Providing a ride to a medical appointment,
- Replacement of smoke detector batteries,
- Providing a ride to drop off or pick up a car for service, and
- Pick up a prescription at a local pharmacy.

During this situation, many Caring Neighbors volunteers would be glad to pick up groceries or pharmacy items. Simply call or email the coordinators.

The coordinators of *Caring Neighbors* are Steve and Cathy Habeger - 410-208-3504 or victortango67@gmail.com
